

## The Guesthouse Stanský mlýn ...Peace and harmony

The guesthouse is located in Hlinecko region, in the village of Vitánov, a part called Stan. It is situated in the picturesque valley of the river Chrudimka on the bordering line of two protected areas, the Žďárské Hills and the Iron Mountains. Historical records of the mill come back to as early as the 16th century.

The overall capacity consists of 21 beds in three en-suites and two rooms available during the whole year. The historical vibe of the place can be felt through beams, stylish furniture and oak floors. There is a big community room reconstructed from the former millroom, where guests can gather or weddings and other social events can be held. The mill room is connected with the outside terrace where guests can find a peaceful summer sit-down with a beautiful view to the scenery. The place is furnished in a traditional rural style and it is wheelchair accessible. Guests can also rent bikes, buy local products, use an outdoor swimming pool, a children's playground and an outside fire place. Remarkable rarity of the place, which guests can admire, is a 100-year-old reconstructed waterpower station with an original Francis's turbine of 220 kW output.
