

František Řezníček Honey against crisis...

This is the motto of František Řezníček whose main occupation is beekeeping, honey-production, making hivedross (propolis) ointments and tinctures and mead without chemical additives. It is becoming more and more common these days to buy diluted honey in the supermarket "from both EU and non-EU countries". This kind of thing will never happen to you with Fanda a Beekeeper- whose life is closely connected with bees. He keeps bees on eleven spots all around the Iron Mountains and the Žďárské Hills in the clean environment of the Czech Moravian Highlands. His two hundred bee-hives take care of pollination of plants, crops and fruit trees in this area. All his products are certified as chemicals-free by the Research Institute of Organic Syntheses. High quality of his products have been confirmed by the Certificate of the Beekeeping Research Institution in 2010.

Propolis ointment in beeswax – it is purely natural hand-made chemicals-free ointment in beeswax. Unlike similar ointments sold in farmacies this one includes much more propolis. The ointment helps healing excema, burns, cracked skin, abrasions and it desinfects.

Propolis ointment in vaseline – unlike similar ointments sold in farmacies this one includes much more propolis. The ointment helps healing excema, burns, cracked skin, abrasions and it desinfects. Thanks to the vaseline it is very easily spread.

Propolis tincture – pure propolis dissolved in 60 per cent spirit. It is perfect against moulds, warts, toothache or healed wounds.

All the certified products are very tasteful, they consist of many vitamins, enzymes and substances beneficial for health. Honey comes from the clean region of Hlinecko and water used for mead is of unique Hlinsko origin.
